

To Whom It May Concern

Subject: Anna Przybylski

From: Maria Lodek – 7th Grade Mathematics Teacher at Northeast Middle School

Miss P has been my student observer throughout January 2010. She comes to my classroom everyday from 7:30am to 3:00pm. She works with students, teaches parts of the lessons, and helps me with day-to-day routines.

Miss P is very diligent and reliable. She has worked with individual students, small groups, and the whole class. She is well-liked by the students and treats them in a respectful and responsible way.

Miss P has always been open to completing any task that I ask of her. She always exhibits a positive attitude and completes everything accurately and efficiently. She has completed tasks such as grading papers, using the copy machine, taking attendance, teaching lessons, implementing classroom management skills, and attending team meetings.

Miss P has been a wonderful asset to my classroom this month. She has helped me in all areas of the classroom, as well as helped the students. I know I will miss all the help she has given me, and I know the students will miss her as well. She will be an excellent teacher in the future.
