19 April 20011

To Whom It May Concern:

Anna Przybylski has applied for a teaching position on your faculty and has asked me to write a recommendation concerning her merits. I do so enthusiastically. I have known Anna since the spring semester of 2008. She has been in four of my classes while attending Albright College. She was one of the top students in all four classes. In my interactions with Anna, I have found her to be a highly motivated, intelligent student. She has good communication skills and knows how to explain mathematics. I have no doubt that she will be an excellent teacher of mathematics. I have had many conversations with Anna about teaching and have noticed how interested and excited she is about becoming a member of the profession. Anna has a natural ability in mathematics, and a huge passion for teaching. These skills will ensure her success as a teacher. Anna would be a great asset to any mathematics department in any high school in the nation.

Sincerely,

A handwritten signature in blue ink that reads "Christopher J. Catone". The signature is stylized, with the first and last names being more prominent than the middle initial.

Christopher J. Catone
