To Whom It May Concern,

Anna Przybylski has been a student teacher in math in our school for the last several weeks. As part of our team of four subject area teachers, I have had the opportunity to work alongside Anna in a variety of ways, including team meetings, student / parent conferences, student disciplinary action and discussions, as well as the usual camaraderie and socializing that teachers share on a daily basis.

I have found Anna to not only be a positive addition to our team, but also an easily accessible and helpful coworker. In a very short period of time, Anna has blended seamlessly with our regular contracted teachers. She offers useful comments, volunteers to do work outside of her normal responsibilities, and is really a pleasure to work with.

In my opinion, Anna would make a positive addition to a team of professionals. I have personally enjoyed working with her this year.

Sincerely,
